PROFESSIONAL SUMMARY

Motivated B.Sc. Information Technology student with hands-on experience in full-stack web development. Proficient in building responsive web applications using modern JavaScript frameworks and technologies. Strong foundation in CRUD operations, RESTful API design, and cloud-based database management. Passionate about creating user-focused solutions with clean, maintainable code.

EDUCATION

Sankalchand Patel College of Engineering. Visnagar, *India.*   2023 – 2026
B.Sc. IT
CGPA: 7.84

SKILLS

Frontend: HTML, CSS, JavaScript
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, VS Code

PROJECTS

Wonderlust – Property listing Website

- Developed a comprehensive full-stack web application for hotel listings using Node.js, Express.js, MongoDB, and Mongoose, enabling users to browse, view, and manage hotel properties with real-time data rendering

- Implemented complete CRUD (Create, Read, Update, Delete) operations and RESTful API architecture to handle hotel data management efficiently

- Integrated MongoDB Atlas for scalable cloud-based data storage, ensuring high availability and seamless data persistence across the application

- Designed a responsive user interface with dynamic content rendering, improving user experience and application performance

- Applied MVC architecture pattern to maintain clean code structure and separation of concerns throughout the application

Resume Builder Web Application

- Developed a dynamic resume builder that provides real-time preview of user input using JavaScript DOM manipulation.

- Implemented one-click PDF export functionality using html2pdf.js, generating A4-formatted, print-ready resumes.

- Designed a responsive UI using CSS Flexbox and media queries for cross-device compatibility.
